By Supervisor Kopp, that a letter be sent to the City Attorney asking him to prepare an ordinance amending Section 22a of the Municipal Police Code as follows, "Substantial obstruction under this section includes unlawful, intentional, and malicious intimidation of any person or persons from lawfully using any street, sidewalk, passageway or other public place. By Supervisor Ward, that the City Attorney be requested to advise the Board of the impacts legislation recently passed by the House of Representatives ending all rate regulation of the cable television industry after two years would have upon the City and County of San Francisco.

2. Re Item 4, File 295-84, amend on line 16, by adding "of aerobic and other exercise classes" after "donors and service providers".

Requests Granted

By Supervisors Silver, Britt and Hongisto, that the City Attorney be requested to prepare in proper form legislation calling for a statewide policy on toxic contamination. [File 300-84-3, E&E - See file for proposed text]

By Supervisors Walker, Silver, Ward and Kopp, that the Director of Health be requested to submit the results of his investigation of the Emergency Medical Service, specifically the plan of action that he refers to in his September 27 letter to the Clerk of the Board, and to provide the Board with information on ambulance response times, as soon as possible. [File 392-84, Health]

By Supervisor Kopp, that a letter of inquiry be sent to the Chief Administrative Officer to determine what he plans to do to eliminate the personnel problems of the Emergency Medical Service reported in the October 14, 1984 edition of the San Francisco Examiner, and specifically what he intends to do to expedite the response time in the Lake Merced area where it exceeds the safe limit.

By Supervisor Kopp, that a letter of inquiry be sent to the Chief Administrative Officer, to obtain justification for the payment of \$90,000 to the Director of Health when 40 percent of his budgetary responsibility has been removed.

By Supervisor Silver, that a letter be sent to the Department of Public Health, through the Mayor and the Chief Administrative Officer, to determine whether the job of paramedic on emergency ambulances is over-stressed and whether there are plans for restructuring the job; whether complaints of lax or non-existent supervision are accurate and requesting an explanation of the supervision system; and to suggest that should the department feel it appropriate perhaps a management audit by the Budget Analyst could be conducted if internal investigation is not sufficient. The Supervisor requested further that the Civil Service Commission be provided a copy of the letter with the request for its views on restructuring of the paramedic position.

By Supervisor Nelder, that a letter of inquiry be sent to the Department of Public Health to solicit recommendations on the sections into which the city should be divided for effective placement of a chain of emergency hospitals throughout the city. [File 394-84, Health]

By Supervisor Nelder, that a letter of inquiry be sent to the Real Estate Department, requesting a conference between that department and the Director of Health for the purpose of determining what city-owned locations are available for a chain of emergency hospitals. [File 394-84, Health]

By Supervisor Nelder, that the City Attorney be requested to prepare appropriate legislation requiring the labeling of all foods exposed to gamma radiation, with such legislation to read: "WHEREAS, Certain foods including garlic, onions, potatoes, herbs and spices are now being exposed to gamma radiation by cesium-137, cobalt-60, or high energy electron beam sources, and these irradiated foods may be among the produce being sold to consumers in the City and County of San Francisco; now, therefore, be it RESOLVED, That any and all foods exposed to gamma radiation from any source which are placed in the stream of commerce within the City and County of San Francisco shall be clearly labeled by the statements 'Treated or Processed with ionizing radiation', which shall appear in bold typeface on the label of any and all foods sold or offered for sale to retail consumers in the City and County of San Francisco." [File 395-84, Health]

By Supervisor Nelder, that the City Attorney be requested to prepare legislation to provide for conversion of a vacant city-owned lot at Bayshore Boulevard and Blanken Streets into a community mini-park. [File 396-84, C&R]

By Supervisor Silver, that a letter of inquiry be sent to the Municipal Railway through the Mayor and Public Utilities Commission, concerning the deplorable and dangerous condition of the Forest Hills Muni Metro Station, noting the grimy and poorly lit condition of the temporary stairway and lack of handicap access to the inbound platform, to determine what is being done to remedy these problems and why there has been delay in completion of the reconstruction of the station. [File 398-84, T&T]

By Supervisors Kopp and Silver, that a letter of inquiry be sent to the City Planning Commission to determine why there was a delay in its transmittal of the Chinatown Interim Controls to the Board, pointing out that had they been transmitted earlier they could have been considered as part of the October 16 meeting of the Planning, Housing and Development Committee without necessitating a special meeting of the committee, thereby inconveniencing the Board of Supervisors and the public.

By Supervisor Kopp, that a letter be sent to her Honor, the Mayor, requesting that copies of any and all written agreements reached with the Santa Fe Southern Pacific Company on Mission Bay be provided to the Board for inclusion in its files on the subject.

By Supervisor Nelder, that a letter of inquiry be sent to the Department of Public Works, to determine the feasibility of placing "Do Not Litter" signs in Spanish, Chinese and English at Mason and Filbert Streets and other areas where the department regularly receives reports that garbage and litter need to be removed and to determine whether the department has signs for this purpose. Should the department not have signs for this purpose, the Supervisor inquires whether one could be devised which could read: "This is our city. Help to keep it clean. Please don't litter." - or something to that effect.

By Supervisor Nelder, that a letter be sent to the City Attorney to determine whether San Francisco has joined in the class action suit against asbestos manufacturers to recover the cost of removing deadly asbestos from school buildings, as clearance to join the suit has been given by United States District Judge James McGirr Kelly. If the City has not joined original plaintiffs Lancaster Manheim Township and Lampeter-Strasberg Districts in Pennsylvania, the Supervisors requests that the City Attorney provide an explanation why the City has not done so.

By Supervisor Nelder, that a follow-up letter of inquiry be sent to the Water Department, requesting response to the following questions previously requested and unanswered:

What is the Water Department's policy and procedure for handling consumers complaints concerning giardiasis?

When was the policy/procedure established and what are the subsequent updatings?

Were Water Quality Division employees notified or furnished with copies of the procedure?

If the answer to the foregoing question is "yes", that a list of the employee who were notified or forwarded copies of the procedure be submitted.

Illustrate a specific case of the follow-up in chronological order after a consumer complaint was received concerning giardiasis, including names of personnel in the response.

How does the liason work with the City's Bureau of Communicable Diseases? When was the liason (if any) established?

What training has been provided to Water Department personnel in handling giardia cases? State when the training was provided and the names of the personnel who received such training.

Of the names submitted in response to the foregoing question, specify how many of them have been involved in investigating consumer complaints, including the names of the personnel.

By Supervisor Walker, that a letter of inquiry be sent to the Police Commission, through the Mayor, to determine whether it is true that the Commission is in the process of issuing new jitney permits, at no cost.

By Supervisor Walker, that the City Attorney be requested to advise whether or not the City could require that preferential parking permits be issued only to persons with automobiles that are registered in California and/or with automobiles registered at the appropriate address for the permit.
